

BARGAINING UPDATE

January 29th, 2010

As we approach the Sunday midnight deadline, there are far too many issues to list that have yet to be resolved. The major issues that are still outstanding include the Nickel Bonus, Pensions, Temporary Recalls, Job Postings and Re-transfers.

In the Company's latest offer, many of their proposals are a digression from what we currently enjoy in our current collective agreement.

At this time we are miles apart, but we are committed to working around the clock to reach a fair settlement. A settlement can only be achieved if these issues are seriously addressed by the Company.

Thank You for Your Continued Support.
